European Federation of Waste Management and Environmental Services

FEAD MEMBERS REPRESENT

more than 2 000 recycling and sorting centres

more than 1 700 composting sites

more than 400 waste-to-energy plants

more than 2 200 controlled landfills

70% share in the municipal solid waste market in Europe

75% share in the industrial waste (including hazardous waste) market in Europe

FEAD

promotes environmentally sound waste management
in close co-operation with the EU institutions,
networking with horizontal and sectoral industry,
trade organisations and coalitions.

FEAD's mission is to ensure that:

Effective, practical legislation and its enforcement
leads to environmental sustainability in a
competitive market.
